Q4. Which one shows message iteration in sequence diagram correctly?

Q5. The following is a \_\_\_\_\_.

- A. class diagram
- B. instance diagram
- C. object lifeline
- D. actor

Q6. The solid line in the following diagram is \_\_\_\_\_.

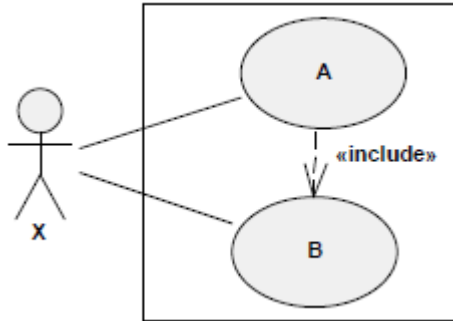

- A. association
- B. link
- C. dependency
- D. communication

Q7. CRC stands for \_\_\_\_\_.

- A. Client Responsibility Collaboration
- B. Client Responsibility Class

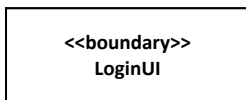

- C. Class Responsibility Consistency
- D. Class Responsibility Collaboration

Q8. What does the following USE CASE define?

- A. the behavior of B frequently used in the behavior of A
- B. the behavior of A frequently used in the behavior of B
- C. the behavior of B might be used in the behavior of A
- D. the behavior of A might be used in the behavior of B

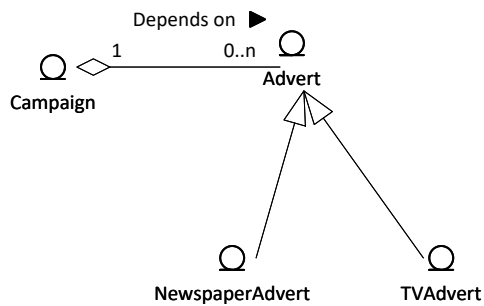

Q9. Look at class shown below

The above can alternatively be shown as \_\_\_\_\_

- A.
- B.
- C.
- D.

Q10. The following diagram shows \_\_\_\_\_.

- A. generalization and aggregation
- B. generalization and composition
- C. composition and aggregation
- D. composition and specialization
